STUDENT TESTIMONIALS

Stuti Pandey

IET Lucknow, 2021 batch

Software Engineer

Walmart

Joining AccioJob was my Best Decision! I learned a lot at AccioJob. The opportunities that I would have never got at my college, I got through AccioJob.

Meenakshi Gattamaneni

Placed at 13 LPA

Software Engineer

Gainsight

What I love the most about the Acciojob team is that they focus on every student and give in that extra effort to understand in what areas each of their students need more work and push us to do better in those areas.

STUDENT TESTIMONIALS

Samarth Gaur

GTBIT, 2021 batch

Software Engineer

Almost everything I prepared for clearing Amazon was learnt from AccioJob only. The perfect word for Acciojob according to me is "Game changer".

Nischal Tyagi

MAIT, Delhi

Software Engineer

BharatPe

I am seriously very grateful to AccioJob. The mentors and the people in my batch have become friends and would help out each other in the future too. I think the community will become even more powerful with time.

ELIGIBILITY

We are open to any student interested in making a career in Technology:

- Any course/Any degree
- No graduation percentage cutoff
- Anyone who is ready to join jobs immediately after completing the training

Ideal Students

- Final year Students
- Recent Graduates(0-3 years of experience)

We believe in working hard with our students!

Hence, our only criteria for students is:

"Motivated to learn and Committed to crack a job"

NEW AGE SKILL SET

Our program is focused to make the student Industry Ready. We teach new age skills required by companies.

HTML, CSS and Javascript are the building blocks of every internet page. With this skillset, you'll be able to develop any web interface!

React is a JavaScript library for creating user interfaces used by some of the best Tech Companies. (Facebook, Instagram, AirBnB)

Node.js is a multiplatform object oriented library event-oriented for Server-Side JavaScript applications.

MongoDB is one of the most important non-relational database. We'll use it to store data in form of file, granting us scalability and flexibility.

Express is a framework for web apps based on Node.js. We'll use it to create fast and performing Web Servers and Web Services

Bootstrap4 is the most adopted framework to create web interfaces. It allows fast and easy creation of responsive web pages.
